Child Abortion- Its Mind-set change of Accepting Girl Child as Goddess Mahalakshmi/ Durga/ Saraswathi

Last week, My wife received a call from her daughter's mother(Sneha-name changed) with low voice and requested her to bring her daughter from the school bus and keep her daughter in our house till late evening.

My wife brought both kids from the school bus in the afternoon and offered food and dress to Sneha's daughter. She dropped Sneha's daughter to her house on the same day late evening. She did not talk to Sneha that day as she was very weak. Sneha met my wife next day and started sharing that she has done abortion as she consulted couple of Astrologers. They confirmed that it would be again Girl child. Financially, Sneha's family is well off as her husband is business-man. They have a mind-set that bring up girl child is difficult while compare with boy child. As an Astrologer, it was my responsibility to communicate her that it's big sin and asked her to pray to almighty for forgiveness. We both were very upset and pity with her stupidity. We prayed to the almighty to forgive her.

As per Bhagavat Gita and Vedic Parana's, killing a child in the foetus by doing abortion or any form is very big sin. Whoever is doing this activity directly or in-directly (Includes consultants like Astrologers, doctors etc.) will undergo multiple re-birth (Karma) and they would suffer a lot with diseases.

At the end of Mahabharata war, What happened to Ashwathama [is one among the seven chiranjeevis(without death)] due to his cowardly act, Lord Krishna curse him that he will carry the burden of all people's sin on his shoulders and will roam alone like a beggar till the end of kali yug.

To create the awareness among villagers, there were award winning movies and TV serials like 'Karuthamma' and few more on killing girl child in the foetus however there are such incidents happening in the city as well.

Conclusion:-

My humble request to my dear Astrologers, whenever people come to you to find out whether Girl or boy child. Pls. don't share the information as it would affect your immediate kids and next 3 generation if they are going

to do abortion. Alternatively, you can put a tag 'No information will be shared on your future child gender'.
