## Significance of Amavasya

**Objective:-** I have seen many people who have been undergoing many problems in their life due to un-awareness of Amavasya and importance of ancestors. I believe that this article will be definitely eye opener to them to understand the value of parents soul, ancestors, significance of Amavasya and Pitru Paksh.

**Overview :-** Veda's and purana's are saying that there are many boons which can give by our parents soul and ancestors that are not possible by even Gods. All the Vedas are saying that Mother, Father, Teacher and God. They give 1<sup>st</sup> preference to our parents only as we first see the world from our beloved Mother and brought up with the help of father. I have seen in many cases whoever is treating their parents with great dignity and respect and perform the prayers regularly after their demise. They are really doing well in the life and their next generation is also happy. Request you not to fall prey with some of the pundits or astrologers that they would perform prayers on behalf of you due to your un-availability. You need to do it regularly for your parents if your parents already expired.

**Synopsis:-**We need food to run our day to day life. Do you know even after their demise, our parent's soul revolves our house? They need food only one day in a month. Parents in the form of soul are longing to get til tharpanam on the day of Amavasya. Can't you dedicate few hour's for them as they have done lot of sacrifices and brought to you at this level? Moreover, their souls are crying when their children are struggling in the life. When some of your astrologer said that Pitru Shabh and ask you to perform the prayers, you first introspect yourself whether am I performing the prayer regularly? Do I need to start now? Furthermore, your parents will not curse you for not performing the prayers but your ancestors may felt un-happy with your action which will become Pitru Shabh. Our parent's soul will never let us down and always protect us.

Many people told me that they have gone to Bodh Gaya, Ganga, Rameshwaram and Varanasi and performed the prayer once due to their time constraint? Pls. note that your problems will not resolve by just doing one-time prayer at the above holy places. You need to dedicate time for them and perform it regularly and call the Pandit and do it in generic way for their annual death anniversary. My dear friends by not doing this, you are creating sin to your next generation.

As per Vedas, whoever is performing the sandhya Vandhanam [Nithya Karma] and regularly doing the prayers to their demise parents and ancestors it will protect their next 3 generation. Do you want permanent solution for your day to day problems? Do you want your next 3 generation will be happy then pls. go ahead immediately?

In South India, why most of the people start their new ventures and auspicious things on Amavasya because they get blessing's from their ancestors. Do you think by not performing the prayers for them and just starting the auspicious things make sense? No it does not. First let us correct it at the root level.
